# PTC APEXADA OVERVIEW

- Ada 95 & Ada 2005 language support
- **ApexAda Developer** (native compilers):
  - Solaris SPARC
  - Solaris Intel
  - Linux Intel
- **ApexAda Embedded Developer** (embedded / cross compilers):
  - **VxWorks** (*Intel, PowerPC targets*)
  - **LynxOS** (*Intel, PowerPC targets*)
  - **ApexAda Exec** (*Intel, PowerPC, MIPS bare-board targets*)
- Summit CM & TestMate test tools

ptc® apexada™

ptc® apexada™

Embedded v5.2 for 64-bit  
Targets is now available!

Get Access Today!

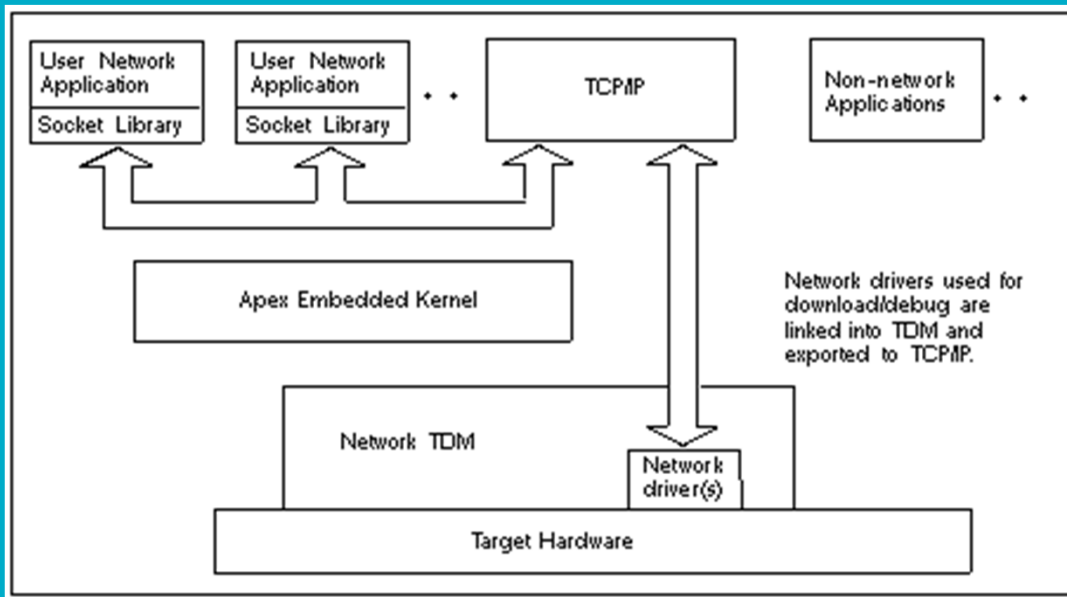

Wind River Partner Program  
PLATINUM

- Includes 64-bit Linux native compiler
- Available Embedded cross compilers:
  - Wind River VxWorks V7/Intel 64 cross compiler
  - ApexAda Exec/ Intel 64 bare-board cross compiler

Released  
May 2018

# APEXADA V5.2 EMBEDDED EXEC/INTEL64

- 64-bit bare-board Ada runtime kernel for Intel X86\_64
- Kernel support for interrupts, time, multiple threads of control
- Two kernel editions
  - Complete Ada tasking kernel
  - Smaller, sequential kernel
- Target Debug Monitor (TDM)
  - Supports download & debug
  - Serial edition / Network edition
- Enet TCP/IP TCP/UDP network stack

# ptc<sup>®</sup> objectada<sup>®</sup>

# PTC OBJECTADA PRODUCTS

## ptc® objectada® / ptc® objectada® 64 for Windows

- Native compiler for Windows
- Ada 95, Ada 2005, Ada 2012 (subset) language support

## ptc® objectada® for Unix / Linux

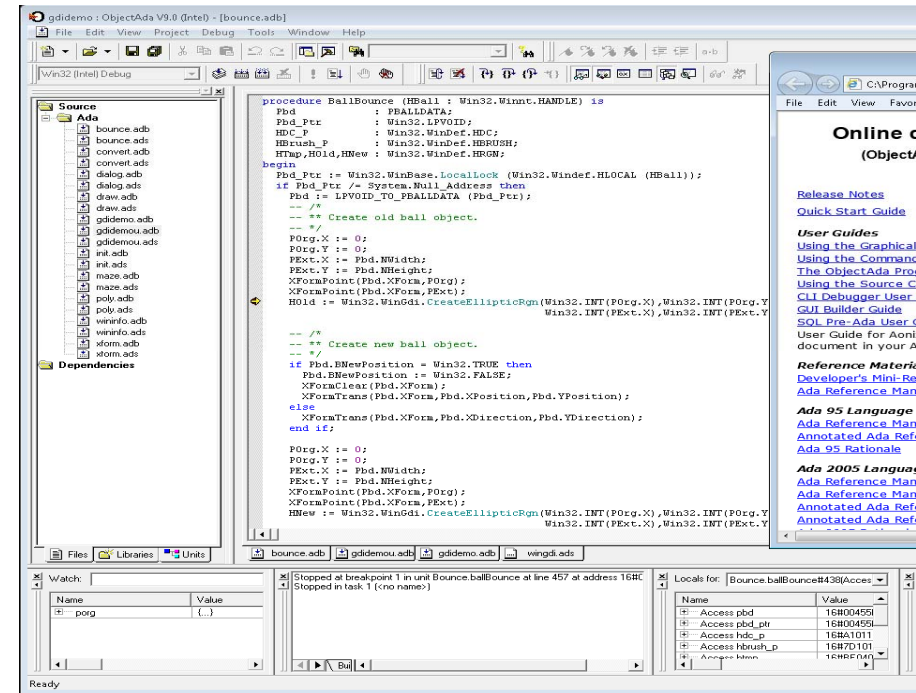

- Native compilers (*Solaris SPARC, Solaris Intel, AIX, HP-UX, Linux Intel*)
- Ada 95 language support

## ptc® objectada® Real-Time™

- Cross development products - Real-time full Ada 95 runtime products
- VxWorks (*Windows host; Intel, PowerPC targets*)
- LynxOS (*Solaris, AIX, Linux host; PowerPC targets*)

## ptc® objectada® Raven™

- Cross development products – safety-critical Ravenscar profile – restricted Ada 95 runtime
- Bare target (*Windows, Solaris host; PowerPC, Intel, ERC32 targets*)
- VxWorks 653 (*Windows host; PowerPC target*)

# ptc® objectada®

# PTC ObjectAda V10.0 is now available!

ptc® objectada® for Windows V10.0

ptc® objectada® 64 for Windows V10.0

Released  
June 2018

- 32-bit / 64-bit application development & execution
- First increment of Ada 2012 language feature support
- Windows 10 compatibility – also works with Windows 7 or later
- Based on Visual C++ 2017 tools and Windows 10 SDK libraries
- ADT Eclipse interface works with latest Eclipse versions

# OBJECTADA V10.0 ADA 2012 SUPPORT

- Aspect specifications
- Dynamic contracts
  - Preconditions and Postconditions for subprograms
  - Assertions for types that are checked dynamically
- New flexible forms of expressions
  - If expressions
  - Case expressions
  - Quantified expressions
  - Expression functions
  - Generalized forms for membership tests
- Predefined program library extensions
  - Ada.Strings extensions / new child packages
  - Ada.Wide\_Characters.Handling
  - Ada.Wide\_Wide\_Characters\_handling
  - Ada.Directories extensions

## PTC PERC PRODUCT UPDATE

June 2018

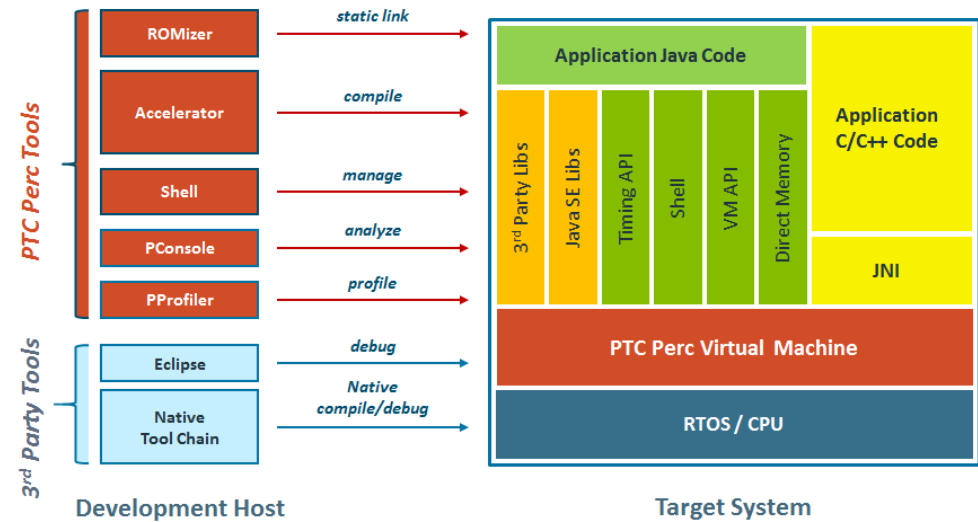

# THE REAL-TIME SOLUTION FOR JAVA APPLICATIONS

## PTC Perc - The Embedded/Real-Time, Deterministic Virtual Machine

- ✓ Patented, Deterministic Garbage Collection Technology
- ✓ Java Standard Edition Compatible
- ✓ Symmetrical Multi-Processor Support
- ✓ Ahead-Of-Time (AOT), Just-In-Time (JIT), and Interpreted Compilation
- ✓ Eclipse-based Tool Chain
- ✓ Broad embedded target OS/RTOS Coverage
- ✓ Reduces Time and Cost of Development
- ✓ Guarantees System Availability

ptc perc®

# PTC PERC VERSUS JAVA STANDARD EDITION

**ptc perc**<sup>®</sup> - the obvious choice

- ✓ For IoT Gateways
- ✓ For Edge Devices
- ✓ When application code security is important
- ✓ When long-lived, trusted execution is required
- ✓ When real-time, deterministic behavior is critical to application success

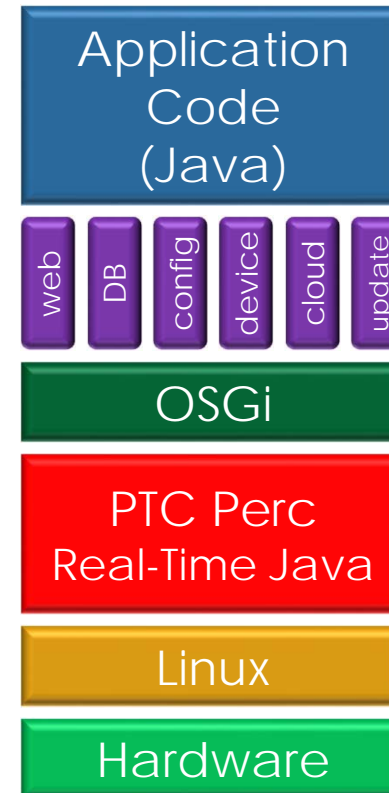

Feature	Java SE	PTC Perc
Just-in-Time (JIT) Compiler	✓ Yes	✓ Yes
Ahead-of-Time (AOT) Compiler	✗ No	✓ Yes
Real-Time Garbage Collector	✗ No	✓ Yes
Priority Inheritance Protocol	✗ No	✓ Yes
Precise Timing APIs	✗ No	✓ Yes
GC monitor and control APIs	✗ No	✓ Yes
Real-Time Scheduling	✗ No	✓ Yes
Page Locking	✗ No	✓ Yes

# IOT GATEWAY SOFTWARE STACK USING PERC

- Typically runs Linux on x86 or ARM hardware
- PTC Perc provides real-time Java with sub-millisecond response
- OSGi framework provides Java software component model, over-the-air (OTA) updates, 3<sup>rd</sup> party plugin components for protocols, database, web, configuration, etc.
- Gateway-specific application code runs as an OSGi component
- Application can respond to events in real time

# PERC USED IN AEGIS WARSHIP SOFTWARE UPGRADE

## Software modernization project

- PTC Perc selected October, 2006 to implement improved user interfaces, new communication protocols, and new functionality in Java
- Uses Concurrent RedHawk Linux on Multi-Core x86 architecture

USS Bunker Hill (CG 52)

USS John Paul Jones (DDG 53)

### "PERC Ultra Virtual Machine passes muster on modernized missile cruiser USS Bunker Hill"

- March 2010 - "The combat readiness trials assert rigorous stress on the systems they test," said Jim Sheridan, Lockheed Martin's director, Aegis U.S. Navy Programs. "We appreciate Atego's technical team's dependability, responsiveness and support during our development and testing cycle."

### "USS John Paul Jones Makes History with Live Fire Missile Tests"

- June, 2014 - USS John Paul Jones successfully conducted five live-fire tests for the Baseline 9C Aegis Combat System during Combat Systems Ship's Qual. Trials (CSSQT) and Naval Integrated Fire Control Counter Air (NIFC-CA) capability

# PERC CASE STUDY - SIEMENS AG

## SPPA-T3000 Distributed Control System

- Improved plant availability, e.g. by predictive data analytics
- Quick reaction of the system or of the guided operator in critical situations
- Deployed in 2395 projects world wide
- “A pre-emptible garbage collector combined with a transparent prioritization of the involved threads was the convincing base for building a deterministic, robust and maintainable solution. Another decisive factor was the Ahead-Of-Time (AOT) compilation mechanism available with PTC Perc...” – *Andreas Drebing, Siemens AG*
- Uses Real-Time Linux on x86

Lausward combined cycle power plant, Düsseldorf Germany

# PERC PRODUCT RELEASE UPDATE

ptc perc<sup>®</sup> Ultra SMP

ptc perc<sup>®</sup> 64

Version 8.2

Released  
June 2018

- 32-bit & 64-bit Linux/Intel and Linux/ARM support
- Key Features / Highlights
  - Updated OpenJDK Library (Java 8 Update 162)
  - Redesigned. faster, real-time Garbage Collector
    - Improved support for Weak, Soft, and Phantom reference types
  - OpenJFX graphics supports Java 8 UI applications
  - AOT/JIT Compiled Lambda expressions provide faster execution
- New Linux/ARM64 support for Raspberry Pi 3, Samsung ARTIK 710 IoT gateway module
